4-1 Exhaust

Where these beautiful curves are coming from?

One of the most distinctive attributes of the CB650R is its swooping four-into-one exhaust system. This beautiful design is a tribute to another iconic Honda: the CB400F also known as the CB 400 Four. Produced between 1975 and 1977, the CB 400 Four caused quite a stir thanks to its café racer look. Producing only 37 bhp (28 kW) at 8,500 rpm and 24 lb-ft (33 N-m) at 7,500 rpm, its four-in-line engine was not meant to take the racetracks by storm. Yet, back in the late 70's, some versions upgraded to 492cc were capable of 13,500 rpm and producing an estimated 60 bhp (45 kW).

PERFORMANCE & DESIGN
